There once was a jam most fair to see
The AUJ sang along with me
Then a virus came, and we all fell low
Drop a beat, drop a beat lets go (huh)

So, we all locked down as the ill wind blowed
Covid came to our fair postcode.
And we ate all day and made sour dough.
Let go my silly men go (huh)

[Chorus]

Soon when the lockdowns done
We'll play all night, drink with friends for fun (hey)
When there's no more zoom, we will sing this song
Drop a beat, drop a beat lets go

Take our uke's and go

Soon when the lockdowns done
We'll play all night, drink with friends for fun (hey)
When there's no more zoom, we will sing this song
Drop a beat, drop a beat lets go

[Verse]

Now we schooled our kids and got fit with Joe
And we very nearly killed them when the Gin ran low
As the stress built high and the wine ran low
Drop a beat, drop a beat lets go (huh)

Our hair grew long as the ill wind blowed
And the nurses came to save us like a thunder blow
And we gave a clap as they marched to war
Drop a beat, drop a beat lets go (huh)

[Chorus]

Soon when the lockdowns done
We'll play all night, drink with friends for fun (hey)
When there's no more zoom, we will sing this song
Drop a beat, drop a beat lets go

Now when the histories told
And the kids ask why we bought toilet roll
Why the masks came out and the world grew cold.
Let go my silly gals go (huh)

Take our uke's and go

[Verse]

Now a fair wind is blowing for the bands and the jams
We can kiss one another, and we'll all hold hands
And the world will heal and we'll dance cross the land
Let's go my silly gals go (huh)

[Chorus]

Soon when the lockdowns done
We'll play all night, drink with friends for fun (hey)
When there's no more zoom we will sing this song
Drop a beat, drop a beat lets go

Soon when the lockdowns done
We'll play all night, drink with friends for fun (hey)
When there's no more zoom we will sing this song

Drop a beat, drop a beat, lets' flow

Drop a beat, drop a beat, let's go….
